Education

•Bachelor of Engineering in Computer Science and Engineering *2022 – 2026*
Acharya Institute of Technology, Bangalore CGPA: 8.9

•12th Grade (PUC) *2019 – 2021*
Sir MV PU College, Davanagere Percentage: 100%

•10th Grade (SSLC) *2018 – 2019*
KristaSharana VidyaPeeta School, Hagaribommanahalli Percentage: 99.20%

Technical Skills and Coursework

Languages: JAVA
Databases: MySQL
Web Development: HTML , CSS , JavaScript, React
Related Coursework: Data Structures, DBMS , Operating System , Computer Network
Soft Skills: Problem Solving, Communication, Team Work, Collaboration

Personal Projects

•Early Autism Spectrum Disorder Detection using XGBoost | GitHub *2025*
A machine learning-based web application for early ASD screening using clinical and behavioral data.

– Built a stacking ensemble model (XGBoost, Random Forest, CatBoost) achieving 95% accuracy.
– Processed real-world ASD screening dataset (700+ samples); handled class imbalance (73:27) using SMOTE.
– Validated on external dataset (1,054 samples), achieving 94% accuracy.

•Employee Task Tracker | GitHub *2025*
A full-stack web application to manage and track daily employee tasks.

– Developed RESTful APIs supporting 5+ CRUD operations for efficient task management.
– Built a responsive frontend enabling real-time task creation, updates, and tracking.
– Designed and integrated MySQL database with optimized schema for efficient data storage and retrieval.

•Phishing Detection Using Email Parsing and ML | GitHub *2025*
A phishing email detection system using natural language and URL-based analysis.

– Processed and analyzed 2,000+ email samples by extracting subject, body text, and embedded URLs.
– Developed a Random Forest classifier achieving 95% accuracy in phishing email detection.
– Performed data visualization and model evaluation using matplotlib and scikit-learn.

Experience

Web Development Intern *Remote*
Sanskar Foundation (NGO) 2025 – Present

- Developed 3+ responsive web pages, ensuring cross-device compatibility and improved user experience.
- Integrated Cloudinary for image hosting and optimized media delivery by replacing local assets with cloud-based URLs, improving page load efficiency.
- Improved website responsiveness and accessibility across devices.

Achievements

- Winner – Acharya INNOVATEX'24 (Ideathon).
- Selected for zonal round of Eureka'24 - IIT Bombay (Business model competition)

Certifications

- Completed JPMorgan Chase & Co. Software Engineering Virtual Experience (Forage), solving real-world tasks using Java and data structures.
- Completed Commonwealth Bank Software Engineering Virtual Experience (Forage), solving real-world development tasks using programming and problem-solving skills.
